## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 and 3 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Ajima et al. disclose a communication system where a first microcomputer outputs a data signal using data frames including a plurality of data bits and having a data time and a transmission period, where a second microcomputer receives the data signal, stores the data frames, and reads and processes the data frames by timing pulses, where the data time is less than half the transmission period. However, Ajima et al. do not disclose that the transmission period is substantially equal to half of the timing pulse period of the timing pulses used to read and process the data frames in the second microcomputer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
